## WHO WE ARE

# Leading Environmental Consultancy in Africa

KMG Environmental Solutions is a premier South African environmental consultancy delivering comprehensive services across environmental management, ESG compliance, occupational hygiene, and professional training.

With a multidisciplinary team of SACNASP-registered scientists, EAPASA-accredited practitioners, and SAIOH occupational hygienists, we bring together expertise spanning environmental science, chemistry, waste management, and regulatory compliance.

Our commitment to scientific excellence and professional integrity has made us the trusted partner for clients in mining, industrial, infrastructure, and renewable energy sectors across South Africa and the SADC region.

## Our Mission

Delivering scientifically robust solutions that protect ecosystems, ensure compliance, and enable sustainable development.

## INDUSTRIES WE SERVE

# Sector Experience

---

## Mining & Resources

---

- Environmental monitoring programmes
- Mining right applications & EMPr
- Closure planning & rehabilitation
- Water use license applications

## Infrastructure & Transport

---

- Road & rail environmental assessments
- Water & sanitation projects
- Telecommunications infrastructure
- Port and logistics facilities

## Energy & Renewables

---

- Solar PV plant assessments
- Wind farm environmental studies
- Power line EIAs
- Battery storage facilities

## Industrial & Commercial

---

- Manufacturing facility compliance
- Property development EIAs
- Retail & commercial projects
- Industrial park planning

## Geographic Coverage

**South Africa:** All nine provinces with head office in Johannesburg.

**SADC Region:** Lesotho, Botswana, Mozambique, Namibia, eSwatini, Zimbabwe.

## CPD ACCREDITED TRAINING

SACNASP and EAPASA accredited training provider. Our courses award CPD points for registered professionals.

## OUR RESOURCES

# Equipment & Expertise

We maintain a comprehensive fleet of calibrated monitoring equipment for project deployment and rental services.

## AIR QUALITY

- Personal dust samplers (PM10, PM2.5, TSP)
- Real-time particulate monitors
- Gas detection equipment
- Portable weather stations

## WATER QUALITY

- Multi-parameter water quality meters
- Portable pH & conductivity meters
- Turbidity meters
- Professional sampling equipment

## NOISE MONITORING

- Type 1 & 2 sound level meters
- Personal noise dosimeters
- Octave band analysers
- Environmental noise monitors

## SURVEY & SPECIALIST

- Soil sampling equipment
- GPS surveying instruments
- Thermal imaging cameras
- Drone for aerial surveys

MINING SITES

REMOTE AREAS

SOIL STUDIES

## Quality Assurance & Laboratory Network

All equipment calibrated to international standards with detailed records. We partner with SANAS-accredited laboratories for sample analysis, ensuring results meet regulatory requirements.

## CREDENTIALS
